

# SUCCESS AFTER SUCCESS

JPA FURNITURE OF ST ALBANS HAS WON ITS SECOND BUSINESS AWARD OF 2016. ATTENDING THE HERTFORDSHIRE CHAMBER OF COMMERCE INSPIRING HERTFORDSHIRE AWARDS, IT SCOOPED THE ENVIRONMENTAL AWARD AHEAD OF OTHER FINALISTS TEWIN BURY FARM HOTEL AND GLOBAL RAIL CONSTRUCTION LIMITED.

"It was a bolt from the blue," said Fiona Edwards, Sustainability Director, "just coming to the awards and sitting in the lovely cars at the Hatfield Porsche Centre would have been enough!"

This is JPA's second business award of the year, having picked up Best CSR Team at the Third Sector Business Charity Awards in April, where they were short-listed against npower.

It's been quite a year for JPA who are busy expanding their office furniture business in St Albans and throughout Hertfordshire – their unique "One in, one out" end of life redundant furniture scheme has really set them aside from others in their field and they are delighted with the result.

"this can do our business nothing but good" says Fiona, but the fact that we are also improving our clients' environmental performance as well as improving their bottom line is a big win.

JPA Furniture was established

in 1974 and are in their 41st year of trading. Specialists in the contract furniture market, we work closely with You, our Clients on the design, specification and creation of innovative, collaborative and engaging spaces for Working, Learning and Living. As an independent family firm, we are now into the second generation of family ownership and seeking to drive the business forwards in line with the ever changing demands of the 21st Century.

Its vision is to partner with clients and all elements of the supply chain, working collaboratively to deliver a Circular Economy model, and to drive innovation in the way contract furniture and contract furniture services are delivered. Our passion for sustainability in all aspects of our operation is our main driver with our business model developed around the three key pillars of social, economic and environmental sustainability.

## MILANI

**Milani is proud to support JPA Furniture with innovative seating solutions.**

Glider is a flexible program with important transformation characteristics from the Executive Operative-Home Office solutions, with the possibility of adapting to the requirements of every individual or work group. A wide range of finishes are available: wood veneer, melamine, glass and laminated.

Glider is also a system of shared workstations which is opportunely completed by a range of accessories and screens which express a sober individual character. Every single element transmits its own philosophy, the result of a study in terms of space and furnishings.

Glider is highly-rational and flexible furnishing solution matching the most diverse working and space requirements. A wide offer, as well as wide range of assembling combinations of leaning surfaces are provided; besides that, an interesting solution is represented by the workbenches, where wires are fully hidden. High degree of customising and organization of archiving systems is achieved. Different sizes, combinations and finishing as per our programme.

The unusual tripod leg design has been produced with solid wood finished in a choice of five veneer options to complement the various desk tops.

Rail, as all Bralco products, has been designed and produced in Italy, to guarantee the exclusive authenticity which characterizes Made in Italy Products as unique and distinctive throughout the world.

Rail's pure and essential features do not establish any social hierarchy: instead, they exude a sense of status through the formal elegance that appears in all its relevance.

Rail is a furniture program designed for executive offices, consisting of individual desks or desk compositions with supporting service units.

Within the range there is a complement tables and desks designed with innovative shapes to be used as independent desks, workstations with integrated storage or meeting tables.
