

OUR RESOURCES - AT YOUR DISPOSAL

New ways of connecting, new ways of working

Our Unique Factors:

Warehouse, Fleet and Fitting Team

The JPA delivery fleet is fitted with the latest safety equipment, route planning and tracking software to ensure that your furniture arrives safely, on time, every time:

- Full control over the entire delivery process
- Recognisable red livery
- Spare parts for fast completion of service work
- CSCS and First Aid qualified installation teams
- DSE Assessor trained
- Safe Driver courses completed by driving staff
- JPA uniforms for easy recognition
- Teams carry ID cards and are DBS checked
- White glove service available
- Storage capacity for peace of mind

“JPA delivery and fitting staff have always been helpful and resourceful in overcoming obstacles as they have arisen”

Scott Foulon
Building Projects Manager

Own Installation Team, Vehicles And Warehouse

Our CSCS Trained Fitters

Our Operation

As one of the few office fit out companies to have retained its own fleet, fitting teams and warehousing, we have control over the entire order process. Our resources can be deployed at short notice, tailored to clients requirements, ensuring rapid response, peace of mind and excellence in customer care.

Our fitters are easily identifiable in their JPA uniforms, are fully CSCS trained and DBS checked for security. They are helpful, polite and here to help.

Providing Related Advice And Expertise

Wool...

It's natural and renewable and has been around for millions of years. And it will be here long after the oil-based synthetics have gone. But it's not just environmental, it's the best performance fiber there is, with multiple smart abilities which have never been matched by man-made fibers. It has a microscopic armor like coating that preserves its beautiful appearance for longer. It has natural crimp which prevents flattening and resists wear, while its luxurious drape and stretch make it the perfect accompaniment to the curves and contours of sculptured furniture shapes. It enjoys a natural cell structure, making it a "feel good" breathable fiber which can absorb and evaporate moisture for total user comfort. And it's fire safe thanks to its high moisture and nitrogen content, it's difficult to ignite, forms a char against flaming and in a severe fire situation will not melt, drip or give off noxious fumes.

...at a glance

- Rapidly renewable
- Grown, not man-made
- Totally biodegradable
- Low energy footprint
- Low CO2 impact
- Appearance retention
- Inherently soil hiding
- Does not attract dust & dirt
- Stretch and recovery
- Breathable
- Insulating
- Feel good
- Fire retardant
- No flaming droplets
- Low smoke toxicity
- Low flame spread
- Self-extinguishing
